Memory and the Arts: Film, Music and Visual Art

A Screening and Discussion of the Film

Musica Concentrationaria

*Interviews, documents and original score
 In original languages with English subtitles
 By Francesco Lotoro*

A travel experience through France, Netherlands, Germany, Switzerland, Denmark, Czech Republic, and Israel looking for concentration camp survivor musicians and their relatives.

The places of memory as a witness, not only of the tragedy of the Holocaust, but also of the human capacity to create, compose, play music during imprisonment and isolation.

Brightness shines also in the dark.
